Innovative Practices

What are the needs of teaching and learning in our school now?

How can we help our members' schools the most right now?

Survey them?

PD that is available on the other side of the state as opposed to only in Franklin

PD can also be people coming together to discuss a problem of practice

?monthly - virtual opportunities to come together to discuss/share a problem of practice

Collect resources / ideas to then share out

(Rich Kelly was the PD coordinator...)

Could this committee be more involved with making recommendations about what PD is offered

Look at last year's data on what PD was attended... what the needs are

-We could make each of the T & L meetings around a problem of practice

If we know the topic ahead of time- we can invite others that want a voice at the table

Compile the ideas/resources -- then share out with MSAA through Matters

Taking this beyond just administrators and invite teachers

DEI work as a focus?

6. **Recommendations for the board**
