

MASSACHUSETTS SCHOOL
ADMINISTRATORS' ASSOCIATION

2022-23 Mentoring Program

MSAA....GROWING COURAGEOUS LEADERS

From one of our recent Mentees;

"My mentor has provided advice with difficult situations, helped me map out a timeline of important events, and served as a sounding board for new ideas and communication strategies aimed at benefiting teaching and learning in my school community. He is a combination of a coach, counselor, friend, and teacher all wrapped into one. I would highly recommend a Mentor for all Principals, but especially those at the beginning of their career."

Your MSAA Mentor Program will:

- Provide trained Mentors supported by consistent Professional Development
- Work with Central Administration in support of goals and objectives.
- Provide Entry Plan assistance starting as early as July 1.
- Emphasize the importance of Equity and Inclusion in all educational decisions.
- Support CH. 35.04: Standards and Indicators of Effective Administrative Leadership Practice.
- Develop a confidential relationship that supports mentee's leadership growth.
- Submit an end of year report on all meeting dates and educational topics discussed.
- Our 2022-23 programming content will be further enhanced by our observance of DESE's ongoing development model of Induction & Mentoring Practices for School Leaders.

We believe our offering of in person monthly meetings, as well as unlimited access via Zoom, email and cell is both cost efficient and overwhelmingly productive for your new administrator.

To learn more about our program; or, to request a Mentor, please email or call:
